Introduction to Party Management

This guide cover the steps involved in setting up and managing a Local Party and its associated Wards, Areas and Elections.

Background

- Elector records in an Electoral Register include which Polling District the Elector is in
- Electoral Registers are election type agnostic, so do not record Wards, Constituencies etc.
- We therefore provide a method for
  - Creating the Wards etc. you are campaigning in
  - Creating the Elections you are campaigning in
  - Assigning Polling Districts and hence the associated Elector Records to Wards (following upload of some or all of the Electoral Register – see User Guide: C3 Electoral Register Initial Upload)

Specific topics covered in this User Guide

- Party Settings
- Wards
- Elections

Each word in the ward name must begin with a capital letter and all the other letters must be small letters.

- Note: the current data validation rules mean that e.g. “and” has to be entered as “And”, and “&” is not accepted – this will be corrected in due course

Delete a Ward

- Note: Wards can only be deleted if they are not associated with any Areas (i.e. addresses)

Elections (1) View

The Elections that you have set up in the system for your polity are shown here

Defining an election makes it available on the canvassing screen so you can gather voter intention.

When you define an election you define which polity (e.g. a local council) the election is for and which areas (e.g. wards) are participating in the election.

Note that you cannot delete an election that has had canvassing data recorded for it.

Areas (1) View

Areas connect the Electoral Register data to the Wards etc. that you have set up in the system for your polity, by assigning Polling Districts to the Ward

MANAGE AREAS

Create Area

Areas are wards, district council areas, parliamentary or regional constituencies.

When you define an area you choose which polling districts (and therefore voters) belong to that area.

Configuring an area makes it available for canvassing.

Existing Areas

Use the drop down below to choose the type of areas you wish to view:

Area Type

Note that there is currently only one type of Area supported by the system

Areas (2) Edit

Edit an Area Edit

You can only change the districts associated with an area. You must delete the area if you need to change anything else.

Area Type: **Electoral Wards/Divisions**
Area Name: **St Giles**

Choose which of the polling districts on your uploaded electoral roll should be associated to the ward:

BA2 BA1 BA3 BA4 BA5 BA6

You are most likely to want to do this if you are uploading increments of your Electoral Register, and hence need to map new Polling Districts included in the latest increment to Wards

If you cannot see an expected Polling District, it has either

- Not yet been uploaded
- Been assigned to a different Ward/Division

Select (usually) or de-select (to correct errors) and then **Update Area** (or **Cancel**)

Choose which of the polling districts on your uploaded electoral roll should be associated to the ward:

BA2 BA1 BA3 BA4 BA5 BA6

Update Area Cancel

CREATE AREA

Create an area by first selecting the type of area you want to create:

Area Type

Electoral Wards/Divisions

Note that there is currently only one type of Area supported by the system

Select from the available Electoral Wards/Divisions

Now select from one of the available Electoral Wards/Divisions assigned to Southwark:

St Giles

If you cannot see an expected Ward, check it has been created
