Introduction to User Management

This guide cover the steps involved in setting up and managing a Local Party's Users.

A local party has 3 types of Users

- System Administrators: Full access to all the functionality available to a Local Party
- Canvassing Users:
  - Ongoing access to all types of Canvassing
  - Round set up and management
- Action Day Users:
  - Access to Canvassing (Individual Mode and Board Runner Mode) only during relevant Action Days
  - See: UG C5 Action Days

There are two ways in which a new User account can be set up

- Individual requests an account
- Admin directly set up a User account

User Management is accessed here

Setting up a User (1) Requests

Individuals can request an account using the form here: https://ttwdigital.co.uk/onboarding-request

- See UG A: Sign Up

The Admin will see requests from prospective Users here

Pending Onboarding Requests

These users have requested access through the onboarding request form

Name	Email Address	Phone Number	Action	
John Doe	colin_[redacted]com	07799999999	Create User	Delete Request

Total requests: 1

Click on

- **Create User** to bring up a pre-populated version of the Create User form (see next slide)
- Delete Request to ignore the request
  - Note that the individual will not receive any communication from the system that their request has been rejected
