Introduction to Action Days

This guide cover the steps involved in setting up and managing Action Days.

Context

- Action Day Users do not have any ongoing access to canvassing
- An Action Day enables Action Day Users to undertake canvassing
- Initially, this is only for
  - A specified Area
  - A specified date and time period
  - Action Day Users from the Local Party

Once an Action Day is set up, it will be visible to all Users in the Local Party on their Home Screen, however they will only be able to access the Canvassing screens during the date and time period specified.

At the end of that time period, an Action Day User will lose access to the Canvassing screens as follows

- Is not on the Action Day canvassing screens: no access
- Is on the Action Day canvassing screens: at the earlier of
  - Presses an address Navigation button (Previous / Street / Next); or
  - 15 minutes after the End Time

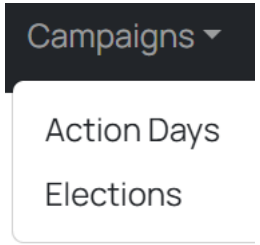
TTW Digital

Creating an Action Day (1)

Select **Action Days** from the **Campaigns** menu



MANAGE ACTION DAYS

Create Action Day

Action Days allow you to make canvassing data available to all users for a specific Area on a specific date and between a specific start time and end time.

You can define as many Action Days as you need, provided that they do not overlap in terms of Area, date and time.

You can copy an Action Day provided you then change the Area and/or date and/or time to make the Action Day unique.

Active Action Days will be visible to users in your Local Party and in any other Local Parties that you select.

Existing Action Days

You have not created any action days yet.

Select **Create Action Day** Create Action Day

TTW Digital

Creating an Action Day (3)

Select the **Date**, **Start Time** and **End Time**

Now please choose the date and time of the Action Day.

(No more than 5 years in the future)

Date *
06/12/2025

Start Time *
10:00

End Time *
16:00

If you are ready for Users to see the Action Day, set the **Status** to **Active**, otherwise leave as **Inactive**

Status

Active (visible)

Inactive (not visible)

Click on **Create Action Day** Create Action Day

Note that this field is not currently used, so although you can populate it, at this stage only Action Day Users in your local party can see the Action Day.

Visible to Users in these other Local Parties
